

Errata Notice: Review of Seattle City Light, October 31, 2002

According to Tacoma Power's Superintendent, a Tacoma Power office provided inaccurate information for the October 31, 2002 report *Review of Seattle City Light*. The Tacoma Power office stated that Tacoma Power employed about 800 employees. However, the Superintendent noted that page 117 of Tacoma Power's 2001-2002 Biennial Budget document stated that Tacoma Power employed only 623.95 permanent employees (excluding the Click Network telecommunications business staff). The inaccurate information appeared on page 86 of the report and was used to create Exhibit IV – 3 on page 87.

The chart below incorporates the correct information about Tacoma Power's staffing.

Exhibit - IV - 3
